

Journal of Advances in Information Technology

CONTENTS

Volume 16, Number 12, 2025

Unsupervised Machine Learning for Bowler Performance Analysis in Indian Premier League (IPL) and Cross-League Prediction.....	1675
<i>Vijay Kumar Varadarajan, P. S. Metkewar, Dhananjay S. Deshpande*, Farhaan Bhola, Anuja Bokhare, and Deshinta Arrova Dewi</i>	
Advancing beyond the Tank: Machine Learning Techniques for Detecting Water Quality and Temperature Anomalies in Intelligent Aquatic Systems	1685
<i>William P. Rey*, Kieth Wilhelm Jan D. Rey, Alberto C. Villaluz, and Dan Andrew H. Magcuyao</i>	
Analysis of External Factors on the Performance of Cryptographic Algorithms in Medical Systems Based on ESP32	1706
<i>Saltanat Adilzhanova, Gulnur Tyulepberdinova, Murat Kunelbayev, Gulshat Amirkanova, Dana Sybanova*, and Aigerim Rakhyshe</i>	
YOLOv8nGM: An Improved Speed of YOLOv8n Object Detection	1724
<i>Chandra H. Heruatmadja*, Harjanto Prabowo, Harco Leslie Hendric Spits Warnars, and Yaya Heryadi</i>	
Large Language Models in a Local Environment for Generative AI-Based Automated Event Log Processing in Process Mining Techniques.....	1734
<i>Poohridate Arpasat* and Wichian Premchaiswadi</i>	
A Model for Financing the Process of Education Informatization, Taking into Account Computer Security within the Framework of a Differential Quality Game	1746
<i>Arkadii Chikrii, Kaiyrbek Makulov, Volodimir Malyukov, Berik Akhmetov, Valerii Lakhno, Inna Malyukova, and Bagdat Yagaliyeva*</i>	
SLR-GPoA: A Smart Land Registry System Using Blockchain and Geographic Proof of Authority	1758
<i>Aditi Mallya, Ankitha Ananth, Anshul Ramdas Baliga, Anusha Mullul Veetil*, Shruti Jadon, and Prasad B. Honnavalli</i>	
Experiential-Adaptative Hybrid Model for Hospitality Based on CNN Neural Networks, Case-Based Reasoning (CBR) and 360° VR.....	1780
<i>Basem M. Alrifai*, Loiy Alsbatin, and Firas Zawaideh</i>	
Sentiment Analysis with Deep Learning: Benchmarking CNNs vs. Prompt-Tuned BERT Models.....	1793
<i>Bo Huang and Fei Song*</i>	
Cloned Social Media Account Detection with Machine Learning	1809
<i>Madi Muthker Alsubie and Mohd Shahrizal Sunar*</i>	
A Comprehensive Study on Deep Learning Techniques for IoT Security	1820
<i>Abdeslem Blali, Souhayla Dargaoui*, Mourade Azrou, Azidine Guezzaz, Abdulatif Alabdulatif, and Fatima Amounas</i>	

An Adaptive Multi-Scale Feature Fusion Framework for Detecting Depression and Assessing Its Severity from Speech Signals.....	1836
<i>Raminder Kaur Nagra and Vikram Kulkarni*</i>	
Enhancing Precision: Leveraging Diverse Acquisition Functions in Dynamic Data Segmentation Using GPR-KNN Approach for Improved Nominal Current Forecasting.....	1855
<i>W. M. R. Jamaludin*, W. M. Wan Mohamed*, and N. H. Nik Ali</i>
