

Journal of Advances in Information Technology

CONTENTS

Volume 17, Number 6, 2026

- Detection the Ripeness of Oil Palm Fresh Fruit Bunch Using Pretrained and Improved Models of YOLOv8 1028
*Saysunee Jumrat, Pattanapong Saeleung, Yutthapong Pianroj, Piyanart Chotikawanid, Teerasak Punvichai, Doungnat Chitcharoen, and Jirapond Muangprathub**
- The Effect of Data Balancing Techniques in RMSProp and Adam Optimizers in Deep Learning Models for Wildlife Recognition: A Pathway to Image-Based Visual Servoing (IBVS)..... 1041
Iman Herwidiana Kartowisastro, Cuk Tho, and Reina Setiawan*
- Enhancing Genetic Algorithms Optimization Using Epigenetic-Inspired Mechanisms 1057
Kornel Chrominski, Malgorzata Przybyla-Kasperek, and Rafal Skinderowicz*
- AI-Driven Forecasting of Operating Room Quality Indicators Using LSTM Neural Networks: A Data-Driven Framework for Smart Surgical Management 1064
*Pei-Ju Wang and Wen-Shin Hsu**
- Statistical Validation of Machine Learning and Optimized MLP Models for Reliable Heart Attack Prediction 1074
Siripurapu Sridhar, Gudla Sateesh, Bonula Ramarao, Bokka Sridhar, Dasari Nataraj, and Eppili Jaya*
- Countering Paraphrasing and Style Transfer in Educational Settings: A GAN-Based Approach to Identifying AI-Generated Academic Essays 1084
Zohair Elmourabit and Asmaâ Retbi*
- Advancing Electricity Load Forecasting Using a Novel Enhanced Harris Hawks Optimization 1096
Ahmed Rashed Almesmari, Mohammed Azmi Al-Betar, and Sharif Naser Makhadmeh*
- A Comparative Analysis of Apache Iceberg, Delta Lake, and Apache Hudi: Architecture, Performance, and Use-Case Suitability 1113
Srinivas Lakkireddy
- Predicting Students' Attrition for the Information Systems Program Using Machine Learning Algorithms 1130
Elfadil A. Mohamed, Mirna Nachouki, Riyadh Mehdi, and Yara Mohammad*
- A Hybrid Metaheuristic Optimization Framework for Multi-Scale Time Series Forecasting Using AO and PGRO 1142
*Hemasundara Reddy Lanka, Nagha Harish Vundavalli, Nagaraju Devarakondai, and Sarvani Anandarao**
- Design and Evaluation of a Dual-Layer Emotion—Personality Framework for Adaptive Conversational Robots 1162
Shitara Kaede, Kantawatchr Chaiprabha, Pimolkan Piankitrungreang, Kosuke Takano, Ratchatin Chancharoen*, and Gridsada Phanomchoeng**

A Neural-Symbolic Approach to Automated Essay Scoring: Integrating BERT and Hidden Markov Models for Interpretable Assessment.....	1177
<i>Ahmed E. Amin</i>	
Accelerated Quantum Algorithm Prototyping: Modular Simulation and Noise Modelling with CUDA Support	1188
<i>Elmin Marevac, Esad Kadušić, Nataša Živić*, and Christoph Ruland</i>	
A Verifiable Credential Framework for Traceable and Scalable Data Sharing: Application to Product Carbon Footprint	1211
<i>Nobuaki Endoh</i>	
Optimized Deep Learning Model for Concrete Crack Classification Monitoring on Resource Constrained Devices	1228
<i>Vanusha. D, Karthikeyan. M, Naga Malleswari. TYJ*, and Ushasukhanya. S</i>
